Getting started with experience pages

We want to make you stand out from the crowd, to do this we need the following..

- **Visuals :**
 - Pictures of your company but even more important are moving images. Do you have a company film? Do you have images of colleagues and do they like it? Perfect. Smiling people always works!
- **Vacancy text:**
 - We will evaluate this text together and adjust it if necessary. We have experience here in presenting a text as attractively as possible. Be sure to already think of 4 or 5 core tasks and how much % of the working time is spent on them.
- **Colleagues have their say:**
 - Have about 3 colleagues come up with a quote about why it is so nice working at your organisation. These one-liners or short testimonials have a lot of impact.

The experience pages go "online"

- **HandS Talent Connect Take Off:**
 - Once we have been able to gather all the info, we go to work for you. We prepare your company page and vacancy page(s), tailored to the platforms we use. The main channels are our Website, LinkedIn, Facebook, Instagram and yes, we take our first steps on TikTok. This way, we reach a lot of people who might be triggered by your great job posting. Our direct contacts on LinkedIn number in the thousands, and are growing every day.

After a week we are ready. The campaign can start.

- Monitoring:
 - Now we are going to monitor everything and make adjustments where necessary. We will keep you informed about the number of views etc. Maybe there will be an application in your mailbox soon.
- Recruitment campaign:
 - Depending on whether your vacancy also has a recruitment campaign, we launch everything at the best times on the various networking platforms. Here too, we closely monitor the dynamics around the vacancy.
- End of Campaign:
 - **The campaign lasts 3 months as standard. For most projects, this should be sufficient. Would you like to publish for longer? There are possibilities here too, feel free to contact us.**
 - Did that candidate arrive in your mailbox, and were you able to reach an agreement? Congratulations! We then wish you the best of luck and are pleased to have been able to help make this happen.
